Profile

Product designer with seven years across health and logistics software. I turn messy, multi-step workflows into products people actually finish using: onboarding that converts, dashboards dispatchers trust and a design system engineers adopt without being asked. Happy to lead a squad, run the research myself and pair with developers through release.

Experience

Senior Product Designer
Lumen Health, London
Mar 2023 – Present

- Lead designer for onboarding and medication reminders in a patient app with **410,000 monthly users**.
- Redesigned first-run onboarding over 11 rounds of testing; **drop-off fell from 41% to 27%**.
- Built the shared component library (80+ components), now used by three squads, and mentor two junior designers.

Product Designer
Parcelwise, London
Jun 2021 – Feb 2023

- Designed the driver app and dispatcher dashboard for a last-mile delivery platform serving 2,800 drivers.
- Ran 30+ driver interviews and ride-alongs; findings reshaped route reassignment and **cut task time by 35%**.
- Set up fortnightly design critique and a searchable research repository for the product team.

UI/UX Designer
Kiln Studio, Manchester
Sep 2019 – May 2021

- Shipped web and mobile work for 12 clients in retail and fintech, from wireframes to developer-ready Figma files.
- Cut revision rounds by testing clickable prototypes with client teams before build began.

Education

2015 – 2018
BA (Hons) Interaction Design
Northfield College of Art & Design, Leeds

2020
UX Research & Strategy Certificate
Interaction Design Institute, online
