17
years in manufacturing and distribution

620
people across four distribution centres

C$4.4M
annual cost-to-serve savings delivered

97.6%
on-time-in-full, up from 91.2%

Profile

Operations leader with 17 years in manufacturing and distribution, the last four running a four-site network for a national logistics group. Known for fixing flow before adding capacity: standardised work, honest KPIs and supervisors who own their numbers. Looking for a COO or VP Operations role in a multi-site business of 500 to 2,000 people.

Experience

Director of Operations

Jan 2022 – Present

Northgate Logistics Group, Toronto

- Run four distribution centres, 620 employees and a C$41M operating budget; report to the COO.
- Led the warehouse-system migration across all sites without a missed shipping cut-off; on-time-in-full rose from 91.2% to 97.6%.
- Cut cost-to-serve by 11% (C$4.4M a year) through slotting redesign, labour planning and carrier consolidation.
- Lowered the recordable injury rate by 38% in two years and built a continuous-improvement office of 12 trained practitioners.

Senior Operations Manager

Mar 2018 – Dec 2021

Halden Foods, Mississauga

- Managed two food-manufacturing plants and 180 people across three shifts.
- Raised overall equipment effectiveness from 68% to 81% through changeover reduction and operator-led maintenance.
- Introduced a monthly S&OP cycle that cut finished-goods write-offs by C$2.1M a year.
- Promoted four supervisors into plant-manager and planning roles.

Plant Manager

Jun 2014 – Feb 2018

Brightwell Packaging, Hamilton

- Ran a 140-person, three-shift converting plant with C$28M in annual output.
- Cut changeover time by 42% with SMED and brought scrap down from 6.3% to 3.9%.
- Held a clean record through every customer and food-safety audit during the tenure.

Competencies

- Multi-site operations
- S&OP and demand planning
- Lean and Six Sigma
- WMS and ERP programmes
- P&L and capex ownership
- Safety leadership, ISO 45001
- Change management
- Carrier and supplier negotiation

Results at a glance

Measure	Where	Before	After	Change
On-time-in-full	Northgate Logistics	91.2%	97.6%	**+6.4 pts**
Cost-to-serve, per order	Northgate Logistics	C$9.60	C$8.55	**−11%**
Recordable injuries per 200,000 hours	Northgate Logistics	4.2	2.6	**−38%**
Overall equipment effectiveness	Halden Foods	68%	81%	**+13 pts**
Scrap rate	Brightwell Packaging	6.3%	3.9%	**−2.4 pts**
Changeover time	Brightwell Packaging	95 min	55 min	**−42%**

Earlier experience

Brightwell Packaging, Hamilton

Production Supervisor — Aug 2011 – May 2014

- Led 35 operators across two lines and built the cross-training matrix that lifted line coverage to 95%.

Operations Analyst — Sep 2009 – Jul 2011

- Built the plant's first OEE dashboard and the weekly KPI pack still used by the leadership team.

Selected projects

2025 **Peak-season labour model**
Built a weekly labour plan for the December peak across four sites, blending agency staff with cross-trained employees.
Overtime down 27% on the previous peak, with no service failures.

2024 **Brampton hub dock redesign**
Rebuilt dock scheduling and slotting at the group's largest hub, 31,000 m², without pausing outbound.
Dock-to-stock time cut from 7.5 to 3.2 hours.

2023 **Atlas warehouse-system migration**
Moved four distribution centres onto a single WMS in nine months, site by site, with weekend cutovers and a six-person super-user team.
No missed shipping cut-offs; pick productivity up 14%.

2020 **Halden packing-line expansion**
Added a third packing line and 40 jobs while the plant kept producing.
Delivered on schedule and 3% under a C$6.5M budget.

How I run sites

- Weekly floor walk at every site.
- One scoreboard: five KPIs, defined identically everywhere.
- Promote from within before hiring outside.
