

Cais das Artes
Massing study, axonometric

Architect and urban designer

TOMÁS AGUILAR

Architect with ten years in housing and adaptive reuse, equally at home in the studio and on site. I favour drawings that builders can read, schemes that reuse what is already there, and ground floors that stay open after six in the evening.

Software

Revit	●●●●●
Rhino and Grasshopper	●●●●○
AutoCAD	●●●●●
Enscape	●●●●○
QGIS	●●●○○
Adobe Creative Suite	●●●●○

Practice

- Adaptive reuse
- Social and mid-rise housing
- Public space design
- Licensing and site supervision

EXPERIENCE

2022 – Present — **Associate Architect**
Atelier Marés, Lisbon

- Project lead on three residential schemes of 60 to 120 homes, from concept to licensing, with a team of eight.
- Led the conversion of a 1920s cannery into a 6,500 m² cultural hub, coordinating structure, MEP and heritage consultants.
- Design lead on the Riverside Commons entry, a public square shortlisted for the 2024 Urban Futures Prize.

2019 – 2022 — **Architect**
Norte Arquitectos, Porto

- Detailed design and site supervision for Casa do Vale, a 14-home social housing block, and a primary-school extension.
- Set up a shared Revit template and clash-detection routine that cut site coordination queries by a third.

2017 – 2019 — **Junior Architect**
Studio Kappa, Barcelona

- Competition team for mid-rise housing and public-space schemes: massing models, façade studies, presentation drawings.
- Drew façade systems and construction details for a 40-home development near Barcelona.

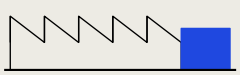

2016 – 2017 — **Architectural Assistant**, Atelier Rocha, Porto

EDUCATION

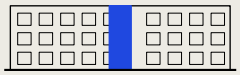

Integrated Master's in Architecture
Porto School of Architecture
2010 – 2016

Exchange year
Mediterranean School of Architecture, Barcelona
2014 – 2015

SELECTED PROJECTS

Cais das Artes
Adaptive reuse, 6,500 m², 2024
A 1920s cannery becomes a cultural and mixed-use hub.

Casa do Vale
Social housing, 14 homes, 2021
One stair core shared by two wings of homes.

Escola de Ribeira
School extension, 2020
New classrooms beside a 1960s school building.
